

JOB MUNYOKI

Software Developer | Full-Stack & Backend | Android | AI/Data | ICT Support

Nairobi, Kenya | +254 799 165 471 | munyokijobdeveloper@gmail.com

LinkedIn: www.linkedin.com/in/job-munyoki-8b4456303 | GitHub: github.com/JobMunyoki |

Portfolio: my-portfolio-gamma-teal-35.vercel.app

PROFESSIONAL PROFILE

Computer Science graduate and software developer with practical experience in full-stack and backend development, Android applications, AI/data systems, cybersecurity platforms, data-quality engineering and ICT support. Hands-on experience supporting ERP and LMS platforms, end users, Windows workstations and institutional ICT operations. Strong working knowledge of Java, Kotlin, Python, JavaScript, TypeScript, Spring Boot, FastAPI, Django REST Framework, React, Next.js, SQL databases, Streamlit, automated testing and GitHub Actions.

TECHNICAL SKILLS

Languages: Java, Kotlin, Python, JavaScript, TypeScript and SQL

Backend & APIs: Spring Boot, FastAPI, Django REST Framework, Flask, Node.js, REST APIs and JWT authentication

Frontend & Mobile: React, Next.js, Material UI, Tailwind CSS, Android Studio, Android SDK and Material Design

Data, AI & Analytics: Pandas, NumPy, Scikit-learn, Streamlit, Plotly, data validation, data cleaning, CSV analytics and predictive modeling

Databases & Cloud: MySQL, SQLite, PostgreSQL/Supabase, Aiven, Render, Railway, Vercel and Streamlit Community Cloud

Testing, DevOps & Tools: Pytest, GitHub Actions, Git/GitHub, Docker, Maven, Gradle, Postman and VS Code

ICT & Business Systems: ERP, LMS, QuickBooks POS, Windows administration, workstation setup, domain joining, troubleshooting and data backup

PROFESSIONAL EXPERIENCE

ICT Department Support - ERP & LMS

PAC University | Nairobi, Kenya | 2026

- Supported ERP and LMS operations, user access and day-to-day troubleshooting for staff and students.
- Handled workstation setup, Windows installation, software configuration, domain joining and general hardware/software support.
- Assisted with user support, basic network troubleshooting, device upgrades and other ICT department service requests.

Web Developer

Gloib Group Limited | Nairobi County, Kenya | Feb 2024 - Jul 2025 | Full-time, Hybrid

- Worked in a full-time Web Developer role focused on internet software and software development.

IT Manager, Accounts and Debt Collection

Winner Distributors | Embu, Kenya | 2020 - 2026

- Administered QuickBooks POS for transaction processing, inventory tracking, sales reporting and business records.
- Provided technical support for POS, hardware, networking and system performance; performed updates, backups and integrity checks.
- Generated sales/inventory reports, maintained debtor and payment records, and supported auditor/KRA documentation and eTIMS records.

SELECTED PROJECTS

FraudGuard AI - AI-Powered Banking Fraud Detection System

- Developed an end-to-end fraud detection platform for transaction capture, AI prediction, fraud labels, confidence scores, risk scoring and analyst review workflows.
- Integrated Spring Boot, FastAPI and MySQL/Aiven services and built a React analytics dashboard for fraud investigation and review.

Tech: Java, Spring Boot, Python, FastAPI, React, MySQL, Aiven, REST APIs and Machine Learning

CyberShield - Cybersecurity Incident & Vulnerability Management System

- Built a full-stack security operations platform for assets, incidents, vulnerabilities, critical alerts, investigation timelines and audit logs.
- Implemented role-based workflows for Admin, Security Analyst and Staff users using React and Django REST Framework.

Tech: Django REST Framework, React, Material UI, MySQL, Railway and Vercel

CSV Data Quality Checker V2 - Data Quality & Cleaning Platform

- Independently developed Version 2 of a previously collaborative CSV data-quality application into a production-ready validation, scoring and cleaning platform.
- Added weighted and column-level quality scoring, interactive cleaning, before/after reporting, CSV export, 34 automated Pytest tests and GitHub Actions CI.

Tech: Python, Streamlit, Pandas, Pytest, GitHub Actions, Data Validation, Data Cleaning and CSV Analytics

ADDITIONAL PROJECTS

Smart Agrovet Sales Analytics Dashboard: Streamlit BI dashboard for sales performance, product demand, revenue trends, inventory movement and KPIs. [Live Demo](#) | [GitHub](#)

Agrovet Sales Prediction Model: Machine-learning app for demand forecasting and stock planning using Python, Scikit-learn, Pandas, NumPy and Streamlit. [Live Demo](#) | [GitHub](#)

SmartVision: Android eye-comfort monitoring app using Java, SQLite, device sensors and notifications. [GitHub](#)

Urban Swap Lite: Next.js/Supabase vehicle rental platform. [Live Demo](#) | [GitHub](#)

EDUCATION

Bachelor of Science in Computer Science - University of Embu, Kenya

Relevant coursework: Software Engineering, Database Systems, Machine Learning, Mobile Application Development and Computer Network Security.

Bachelor of Arts in Development Studies with IT - Maseno University, Kenya

Relevant coursework: Project Planning & Management, Monitoring & Evaluation, Research Methods, MIS, Web Design & Development.

ADDITIONAL INFORMATION

Strengths: Analytical problem-solving, fast learning, adaptability, practical project delivery and reliable systems support.

Communication: Fluent in English and Swahili.
