

JOB MUNYOKI

Software Developer | Android Developer | AI & Cybersecurity Systems | IT Support

Nairobi, Kenya | +254 799 165 471 | munyokijobdeveloper@gmail.com

LinkedIn: www.linkedin.com/in/job-munyoki-8b4456303 | GitHub: github.com/JobMunyoki | Portfolio: my-portfolio-gamma-teal-35.vercel.app

PROFESSIONAL PROFILE

Computer Science graduate with practical experience building full-stack systems, Kotlin Android applications, AI/ML workflows, cybersecurity tools, data analytics dashboards and business support systems. Strong hands-on background in Java, Kotlin, Python, JavaScript, Spring Boot, FastAPI, Django REST Framework, React, Next.js, MySQL, SQLite, Supabase/PostgreSQL, Aiven, Render, Railway, Vercel and Streamlit. Experienced in QuickBooks POS administration, troubleshooting, networking, data backup, reporting, debtor records and operational systems support.

TECHNICAL SKILLS

Languages: Java, Kotlin, Python, JavaScript, SQL

Backend & APIs: Spring Boot, FastAPI, Django REST Framework, Flask, Node.js, REST APIs, JWT authentication concepts

Frontend & Mobile: React, Next.js, Material UI, Tailwind CSS, Android Studio, Android SDK, Material Design

Data, AI & Analytics: Pandas, NumPy, Scikit-learn, Streamlit, Plotly, predictive modeling, fraud risk scoring, CSV analytics

Databases & Cloud: MySQL, SQLite, Supabase/PostgreSQL, Aiven, Render, Railway, Vercel, Streamlit Community Cloud

Tools & Business Systems: Git, GitHub, Postman, VS Code, QuickBooks POS, eTIMS support, data backup, sales and inventory reporting

CORE COMPETENCIES

- **Software & Mobile:** Full-stack development; Android/Kotlin applications; REST API design and integration
- **AI, Data & Security:** AI fraud detection; risk scoring; cybersecurity incident and vulnerability management
- **Databases & Reporting:** Database design; data management; business intelligence dashboards; CSV/KPI analytics
- **Operations & Support:** IT troubleshooting; QuickBooks POS administration; networking; data backup and recovery

PROFESSIONAL EXPERIENCE

IT Manager, Accounts and Debt Collection

Winner Distributors | Embu, Kenya | 2020 - 2026

- Administered QuickBooks POS for accurate transaction processing, inventory tracking, sales reporting and business records.
- Provided technical support for POS, hardware, networking and system performance issues to reduce downtime.
- Performed system updates, data backups and integrity checks to protect financial, customer and stock records.
- Generated sales and inventory reports to support management decisions, stock control and performance monitoring.
- Managed customer debt follow-ups and maintained debtor, payment, sales and financial records.
- Prepared supporting documentation for auditor review and KRA return filing; assisted with eTIMS receipts and stock records.

SELECTED PROJECTS

FraudGuard AI - AI-Powered Banking Fraud Detection System

- Developed an end-to-end fraud detection platform for transaction capture, AI prediction, fraud labels, confidence scores, risk scoring and analyst review workflows.
- Integrated a Spring Boot transaction API with a FastAPI AI service and MySQL/Aiven database; deployed backend services using Render.
- Built a React dashboard with fraud analytics charts, prediction metadata, risk distribution and review status controls.

Tech: Java, Spring Boot, Python, FastAPI, React, MySQL, Aiven, Render, REST APIs, Machine Learning, Fraud Detection

AutoReplyDND - Kotlin Android Auto-Reply Assistant

- Developed a Kotlin Android prototype for custom auto-replies when the phone is in Do Not Disturb mode, targeting WhatsApp notification workflows.

- Designed a Material Design dashboard for auto-reply status, custom response editing, permission guidance and user-controlled settings.
- Implemented notification access patterns, foreground service approach, local settings and user-controlled responses.

Tech: Kotlin, Android Studio, Android SDK, Material Design, Notification Listener Service, Foreground Services, SharedPreferences

Links: [GitHub](#)

CyberShield - Cybersecurity Incident & Vulnerability Management System

- Built a full-stack security operations system for assets, incidents, vulnerabilities, critical alerts, investigation timelines and audit logs.
- Implemented role-based workflows for Admin, Security Analyst and Staff users, with React connected to Django REST Framework services.

Tech: Django REST Framework, React, Material UI, MySQL, Railway, Vercel

Links: [Live Demo](#) | [GitHub](#)

Smart Agrovet Sales Analytics Dashboard - Business Intelligence Dashboard

- Built a Streamlit dashboard for sales performance, product demand, revenue trends, inventory movement and KPI tracking.

Tech: Python, Pandas, Streamlit, Plotly, CSV Analytics, Business Intelligence

Links: [Live Demo](#) | [GitHub](#)

Agrovet Sales Prediction Model - Machine Learning Application

- Developed a machine learning application using historical sales data to support demand forecasting, stock planning and business decisions.

Tech: Python, Scikit-learn, Pandas, NumPy, Streamlit, Machine Learning, Sales Forecasting

Links: [Live Demo](#) | [GitHub](#)

ADDITIONAL PROJECTS

SmartVision: Android eye-comfort monitoring app using Java, Sensors API, SQLite, sensor-data storage, strain classification and notifications. [GitHub](#)

Urban Swap Lite: Vehicle rental platform built with Next.js, Supabase/PostgreSQL, Tailwind CSS, Vercel and GitHub; includes listings, bookings and admin approvals. [Live Demo](#) | [GitHub](#)

EDUCATION

Bachelor of Science in Computer Science - University of Embu, Kenya

Relevant Coursework: Software Engineering, Database Systems, Machine Learning, Mobile Application Development, Computer Network Security.

Bachelor of Arts in Development Studies with IT - Maseno University, Kenya

Relevant Coursework: Project Planning and Management, Monitoring and Evaluation, Research Methods, MIS, Web Design and Development.

ADDITIONAL INFORMATION

- Strengths: Analytical problem-solving; fast learner and adaptable to new technologies.
- Communication: Excellent communication skills; fluent in English and Swahili.
- Professional Focus: Practical project delivery, reliable systems support and accurate reporting.
